Fall....

A Chance to Be Different

The 1984-85 school year brought with it a number of changes. Not only were there the seasonal changes in the weather but also in our school and in our lives. This year was the first for the freshmen to enter LPHS, a drastic change which crowded the halls and added a new competitor to spirit-filled seniors.

Although pep sessions are no longer in the curriculum students released their Slicer spirit during games and spirit week. Energy was constantly shooting out of our student body. Win or lose the cafeteria was full of pep as we Slicers boogied to the beat of WRBR at after game dances.

The changes in emotions ran high; love, hope and fear. Love for our school and the people in it, hope for a successful school year, and fear of the changes that can turn your life. "Sometimes the world's a storm. One day soon the storm will pass and all will be bright and peaceful. No more tears or pain. If you believe look to the dawn and fearlessly bathe in the ... Purple Rain."

Change of Pace

The most memorable week of school was homecoming, the week that brings out an abundance of spirit and a lot of fun. It began on Monday by dressing up. After school the girls kicked off their heels and put on their scruffs for a game of powder puff football. Tuesday was athlete day. Wednesday was sweats day with the games after school. Thursday was by far the wildest, nerd-clash day with the all night decorating of the cafeterias and hallways. Friday, of course, was black and orange day which was excitingly followed by the car caravan, bonfire, pep session, game and the dance.

Cheerleaders Cope With Changes

The Cheerleaders had a rough time coping with the changes this year. The freshmen were worked in along with a separate fall and winter J.V. squads. The spirit boosters worked hard throughout the season to bring forward the slicer spirit during football games, basketball games and the other LPHS games and meets. The cheerleaders main money making project was the sale of white, pink and red carnations during the week of Valentine's day. They also organized a pep-session for the boys basketball team on sectional day.

Intelligence isn't the only quality that we have seen displayed by Fritz Warfield. Fritz is a Sophomore and is one of the greatest examples of true school spirit that can be found. There are many activities he participates in that prove it. Fritz was chosen by Coach Otis to be the manager of basketball for the 1984-85 school year. He found it necessary to be at all practices and games. He also participated in the challenging Math contests held at Chesterton Highschool and at Purdue University, in which he received an award for a percentage above 75.

Fritz has a great attitude towards school and is thinking lightly about a career as a basketball coach. He is presently enrolled in two honors classes and is anticipating three more next year.

On his spare time Fritz plays basketball, chess, studies for Math contests, and sets his yearly goals by great motos such as this; "Find out what you want, go after it . . . and don't quit!"

Meet Fritz Warfield and Bob Burger

On the exterior Bob Burger, a sophomore at LPHS, has all of this credited to his name. He scored in the top 10% of his SAT taken in eighth grade. He won the Academic All American Scholar Award. He is a self-taught pianist and is the only sophomore in Concert Choir. Bob has also written several articles about computers for magazines. On the personal aspect, Bob loves music. He plays the handbells, sings in the Walther League Chorus and Campus Life Singers, and also performs with the La Porte Symphony.

In the future Bob plans to attend Rose-Hulman Institute of Technology to study electrical engineering and computer science and also hopes to maintain his 4.0 grade point average to become Valedictorian in 1987. For now he just wants to enjoy the rest of his high school education, make friends, and perform well at his job with E.V. Controls where he will build and repair electrical equipment. Overall Bob hopes to contribute what he can to society.

LaPorte High School is blessed with many outstanding achievers but none in quite the same capacity as Greg Lewis. Greg is a unique individual in that he has his foot in every doorway and follows every rainbow. His greatest achievements, among many, have been in his musical endeavors. Inspired by his musically talented family, Greg has explored all aspects of music. Throughout his years Greg has participated in Marching Band, Pep Band, Jazz Band, and sings in his church choir. He had the opportunity to tour Europe while putting these exceptional talents to work with the "Sounds of Hope." Greg feels no barriers in his mastering of the musical world which account for his most prestigious honor, receiving the John Philip Sousa award for an outstanding musician.

To coincide with his talent for creativity, Greg places his career goals with his interests in landscaping. He is the manager of his own small landscaping business. Greg not only beautifies the city of LaPorte with his monopoly but provides employment for high school students as well.

For an individual to master these accomplishments in a lifetime is commendable. To achieve as much as Greg has prior to graduating from high school is worthy of an esteemed recognition from all those who applaud Greg Lewis, a legend of his time.

Meet Greg Lewis and Chris Anderson

A familiar face to LPHS is Chris Anderson. Chris has been involved in sports most of his life and hopes to continue in athletics through the rest of his school years. He is an active letter winner of the football team and two-time letter winner in track. While only a freshman Chris took on a varsity position in his speciality the 400 meter dash. During his sophomore year he achieved a personal best of 51.6. Chris has very high hopes in track and wants not only to decrease his time but take a state championship as well.

Being a strong believer that academics as well as athletics should be stressed he is an honor student with a 3.5 GPA. Chris is also in student council and was voted as junior class president. He also took the title of outstanding sophomore athlete and received a mental attitude award for track.

Chris plans to attend the University of Hawaii to become a podiatrist. While there he hopes to play football and run track through his college years. He also believes that college is a sure-fire way to back him up if he fails in his athletic future.

According to Chris's accomplishments the sophomore class voted him outstanding sophomore, which he truly is.

The Vote Is in for Both Boys' . . .

Hoosier Boys' State was one of the best weeks in my life," stated Jim Jones, one of the three who went to Hoosier State. Jim, Mike Holified, and Chris Hagenow represented LaPorte High School at the week long seminar held each year in June at Indiana State University.

Boys' State is set forth to teach high school seniors about how our government works. The students learn about electing officials at city, county, and state levels. Once they have learned the election process, the students hold mock elections. Jim was elected both State Senator and City Judge. Chris was elected State Senator and Mike was the Mayor of Donovan.

According to Jim, "Boys' State was truly a week to shape a lifetime."

. . . and Girls' State

Hoosier Girls' State, held every year in June one week after Boys' State, effected the lives of three students of LaPorte High School. Tammy Stump, Jane Plantz, and Sarah Mawhorr spent a week at Indiana State University to learn about how our government works.

As in Boys' State, the group of 900 girls were divided into cities and learned about how elections are held. Tammy Stump was elected as City Vice-Chairman and a page for her party's convention, Sarah was an alternate for Hoosier Girls' Nation. Jane was elected as County Commissioner.

Lastly, Jane Plantz stated, "With all that each of us learned about our state, one couldn't help but leave with a sense of pride toward the State of Indiana and with a better understanding of the government procedures."

Foreign Exchange Is a Good Experience for All

FOREIGN EXCHANGE
STUDENT: Samuli
Jokipaltio has fun skiing.

FOREIGN EXCHANGE
STUDENT: Pia Olsson, as
she is!

Samuli Jokipaltio is from Espoo, Finland which is near Helsinki. In comparison, LaPorte is smaller than Espoo, but Samuli is surprised at the number of cars, stores, and houses in such a "small town."

Samuli thinks the American school system is interesting because he can concentrate on only a few subjects at a time. In Finland, Samuli has fifteen required classes. Samuli likes his classes here, especially auto mechanics and being a pianist for the Kantra Kays. Samuli is a member of the International Club, Campus Life, and Sadd; and his hobby is computers.

The greatest surprise to Samuli about coming to this country has been the LaPorte winter. He has spent the coldest of his life in LaPorte; and "I thought I was from a cold country," he jokes. In this country, radio and TV are also different because of the quantity of stations. In Finland there are only two channels, one government owned and one privately owned. Also, local radio-TV is just new.

Samuli is enjoying his stay here and says, "I will try to come back as soon as I can, but I still want to live in Finland."

Pia Olsson is visiting from Gothenburg, Sweden, a city with a population of one million people. She, too, finds LaPorte to be very small in contrast to her home town in Sweden.

Pia's school system is different than in this country in that school is not mandatory after the ninth grade. Their day to day schedules vary depending on the day of the week. This rotating system enables them to study more subjects at one time. The students are allowed to call in their absences with no questions asked. Here at LaPorte, Pia especially enjoys her teachers and the way the school is organized. She thinks this school can be very strict at times in contrast to her home school system.

School spirit is something new for Pia. Because most sports activities in Sweden take place during school hours, the students are not able to root for their school. Being a LaPorte Slicer is a memory Pia will carry home with her.

G.R. Has Fun Helping the Community.

Girls Reserve, known around LPHS as GR, was organized to serve the community.

During the year, GR collected cans of food for the Salvation Army. The girls sponsored a dance and gave the proceeds to the National Cancer Society. They gave gifts to the mentally ill for Christmas. In order to raise money for the GR Formal, the members held a car wash, sold M&Ms, and held two bake sales. One of the bake sales was held in the large cafeteria and the other in grocery stores throughout LaPorte.

Girls Reserve Cabinet: Row One: Secretary Jill Prickett, Vice-President Marialice Goethals, Treasurer Shelli Perersen, President Lori Andrews. Contest speech is also a class taken every day during sixth hour; however, this is not the only way to get into this club. You can be in this club by participating in Student Congress. Contest speech has many other categories. These categories are radio communications, original oratory, poetry, drama, interpretation, impromptu, humor, extemporaneous, and discussion. The most challenging of these topics is boys and girls extemporaneous. In this event, you are given a topic and must develop a short speech in thirty minutes.

The members of contest speech were assisted by Loyal Perlich and the officers.

NFL, National Forensic League, is an organization that sponsors activities for the contest speech and debate clubs. They obtain their money to do this from the snack machines. NFL also determines the rules for debate.

NFL is based on a point system. A member of contest speech or debate can earn up to 24 NFL points per event. When a person earns 25 points, he or she becomes a member for life, at 75 NFL points one earns the bronze seal, a seal of honor, at 150 NFL points one earns a silver seal of excellence, at 250 NFL points one earns the gold seal, a seal of distinction, and at 500 NFL points the double ruby seal is earned. These seals are placed on the diploma at the time of graduation.

The LaPorte High School debate team has again succeeded in meeting their goals for the past year. These goals included improving public speaking abilities, meeting interesting people, traveling, and having direct logical arguments. They also improved their style with more effective expressions, tones, and hard gestures. The debate members also learned new skills as well as improving old skills through frequent competition. Some of these skills were rapid thinking, library skills, and effective argumentation.

Speakers bureau is an organization to serve the needs of the students in the different speaking clubs and determine the policy for those students who compete in extra-curricular activities.

The main activity for Speakers Bureau is to hold the annual awards banquet. This banquet was held in the spring for family and friends of the students who participated in Contest Speech and Debate meets.

For the Juniors the Change Is Near

The junior class has many changes ahead of them. Some accomplishments have already been made with the help of our class officers, Robyn Scott, Bill Wilmsen, Tom Plantz, and Lynn Czanderna. Through school activities and academics we have found many ways to proceed with our lives. The juniors are on their way to becoming the most we want to be.

Sophomores; a Change for the Better!

The sophomore class of LaPorte High School had to make a huge change. Coming over from both jr. highs, the sophomores brought along with them the freshmen. Even with the much more crowded halls, the class has adjusted very well.

Top Administrators Retire

Robert Miller, after twelve years as superintendent of LaPorte Community Schools, is retiring. Mr. Miller has served as a teacher, coach, assistant principal, principal, assistant superintendent and superintendent. Obviously Mr. Miller has been an extremely active member of the LaPorte Community School System and we thank him for all his hard work and effort.

William L. Mitchell, Assistant Superintendent announced his retirement from the administration effective June 30, 1985. Mr. Mitchell began his professional education career at Rolling Prairie High School, and came to LaPorte as a teacher, counselor, assistant principal, and then principal. Then he moved to central administration as Assistant Superintendent and has been there for the past thirteen years. Needless to say Mr. Mitchell has contributed much to the LaPorte Community School System. On behalf of the student body and faculty we would like to thank you for your dedication to our school system.

Administration Stays on Top

TEACHER

Concerned and caring
As a true friend
Always ready and willing
to go out of their way
Inclined to listen
to what you have to say

When you need someone
to believe in you
they're there to help
and to guide you

Not only to console
and show you how to try
but to help you understand
and know the reason why

Teachers encourage us to discover
and improve on our valuable
talents

What we acquire now
will carry us through
a sometimes confusing
and distant world

Never turn down
a helping hand
By learning
our future dreams
become a reality

A teacher is so much more
than one who teaches as a
profession

The Art department is one of the elective departments here at LPHS. Students improve their talents and put them to good use. Students were given a chance to express themselves by creating forms of art that displayed their individual talents. The art department this year continued to offer a multitude of programs designed to broaden the student's interest and creativity.

Art offers a chance to be creative and to learn along with the opportunity to have a lot of fun.

Art can be simple or detailed, its up to the artist to create. An artist creates his own special personality.

Walk Into a World of Fantasy

WHO: Girls Reserves
WHAT: Annual Formal Dance
WHERE: L.P.H.S.
WHEN: January 26, 1985

The event was once again a success. Everyone had a great time dancing to the band "Northside Station" between the hours of 9 and 12. In order to have the dance, a great deal of time and effort was put forth into preparing for it. Raising money for decorations, holding workshops, and of course decorating the preceding night and the day of the dance. The ceiling was canopied by balloons, the walls covered with carousels, rainbows, hearts, everything! Everyone had an excellent time and all the points queens and the runners-up had a real "Fantasy."

The day has finally come for us to face the world and to make our high school days memories.

There will be no more crowded halls for us, food fights in lunch, proms to go to, or quiet study halls to sit through.

We all have a lot to look forward to. Going to college, being on your own, making major decisions, and overall growing to be an adult.

So our graduation from high school is an ending and beginning, and our Class President Cary Harnett, lead us to the moment of our future.

Winning

We all understand winning. We've built a great nation around the individual will to win. To get ahead and stay ahead. At work or play, we all compete. We want to win.

Whirlpool Corporation is no different. We compete to win. But a company's will to win is no stronger than the collective spirit of individuals... the results produced no better than combined individual effort. Our will must be strong enough...our results good enough... to compete with the best. We believe they are.

Together we will continue to make and sell appliances second to none in quality and value. Because we want to win. Because winners get to keep competing... and losers don't.

Look to the Dawn . . .

It's the end of another memorable year here at LPHS. For the seniors it will be just the beginning of a lifetime of changes from college to careers to marriage.

Our lives seem to evolve around changes and the adjustments we make to meet them. "Well, whatever it takes, keep it up and may you find a world of neverending happiness."

"For all of us, life is death without adventure.
And adventure only comes to those of us willing
to be daring and taking chances."

Prince

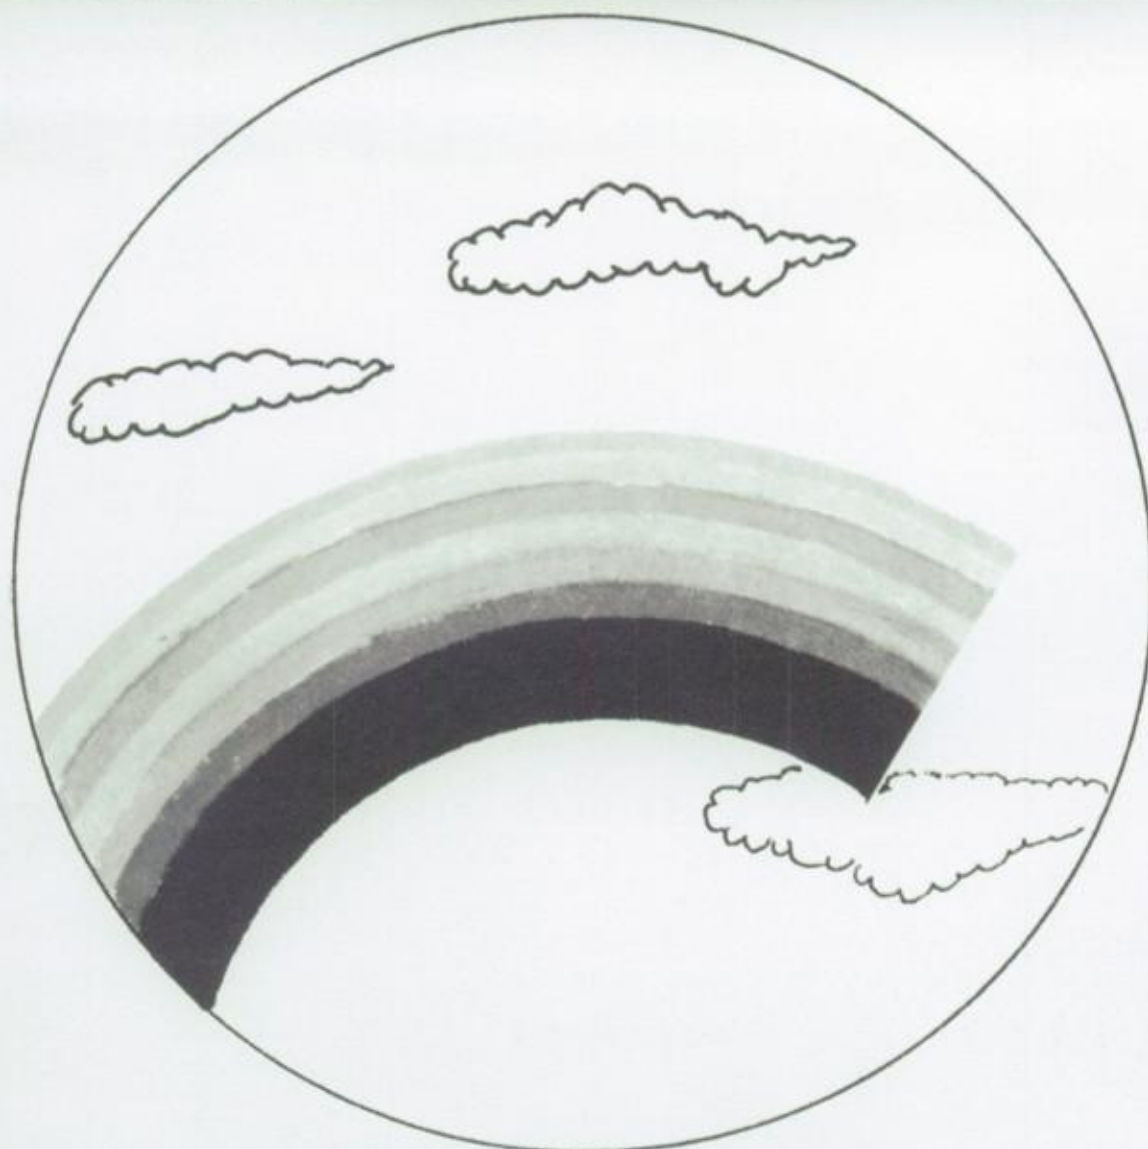

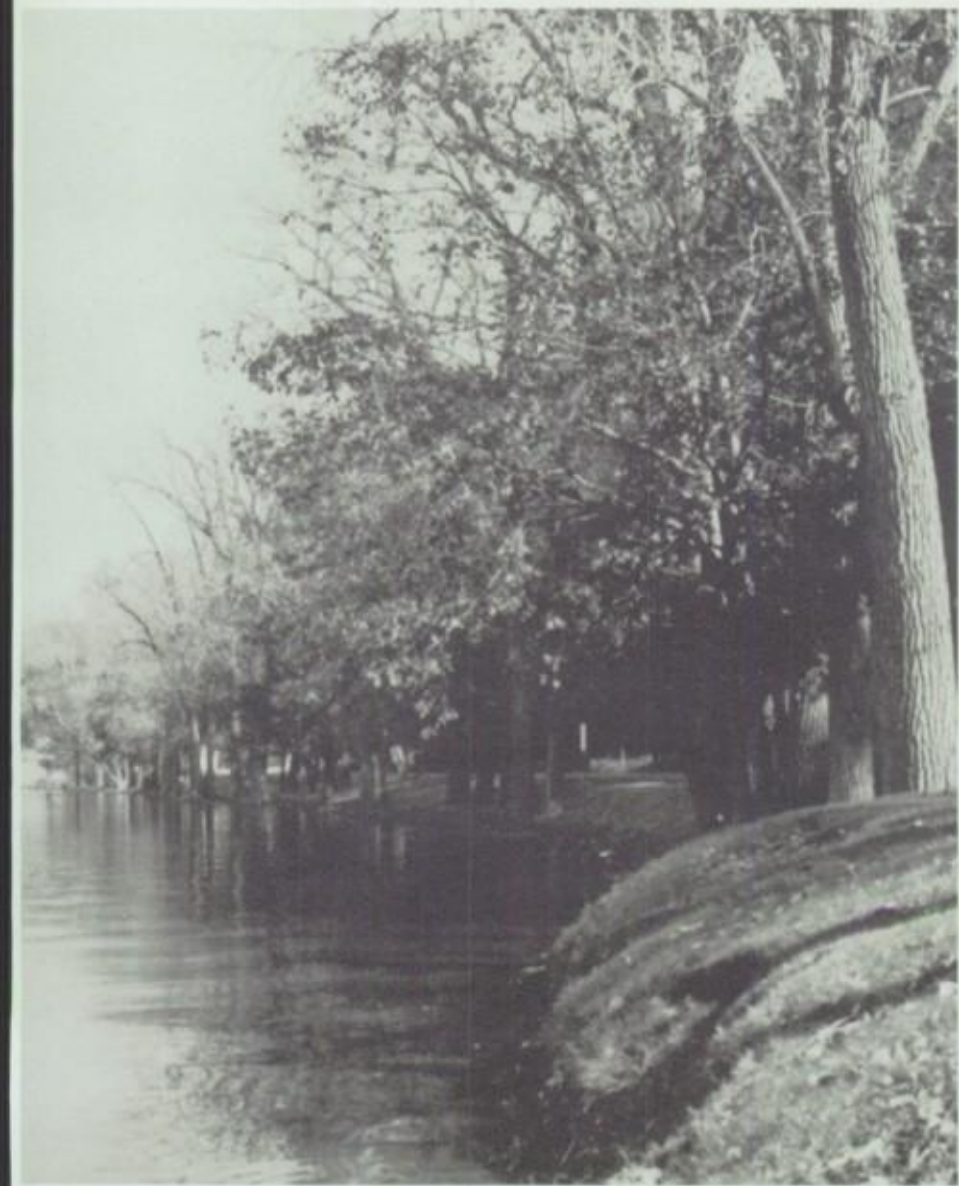

... and You Shall Never Lose.

The Storm Will Pass

A rainbow springs from the last pains of a passing thunderstorm. And lifts itself high up from the wet ground: soars up, curves and cascades into a slowly descending arch that falls beyond our sight. For us, the rainbow is the process of constant creation and becoming that never ends. Our foundation for living may begin in storms of conflict and difficult ethical decisions, but eventually we will evolve ourselves into productive lives, just as the different colors of the rainbow blend and combine one glowing spectrum. There is nothing we build in this world that is really permanent, because all things pass away, just as the rainbow dissolves into the heat of the day. But we will continue to achieve and accomplish new tasks, just as the rainbow rebuilds itself and reappears. For the short time we are here, we will build ourselves, our lives, our loves, our futures, just like nature builds the rainbow to sparkle and gleam, and leave a vivid image long after we are gone.

... and All Will Be Bright and Peaceful

Mr. Bill Reed — the creator of my editorship, Mr. Roger Stewart — "your guidance is invaluable." Mr. Steve Talsma & Taylor Publishing Company — the producers. Barry's, Root, the Herald Argus, Mr. Don Fissgus — all the others & anybody else I foolhardedly forgot 2 mention. Thank U — may this yearbook bring 2 life the visions in your mind & always help U 2 remember the good times of 1985 — Gracias a Dios y a ustedes.
